BICKLEY, W. G. Finite Difference Formulae for the Square Lattice . 35

CARTER, A. E. and SADLER, D. H. The Application of the National Accounting Machine to the Solution of First-order Differential Equations 433

COLLAR, A. R. Some Notes on Jahn's Method for the Improvement of Approximate Latent Roots and Vectors of a Square Matrix . 145

CRAGGS, J. W., see GOLDSTEIN, S.

DUNCAN, W. J. Assessment of Errors in Approximate Solutions of Differential Equations. 470

FOX, L. A Short Account of Relaxation Methods . . . 253

—, HUSKEY, H. D., and WILKINSON, J. H. Notes on the Solution of Algebraic Linear Simultaneous Equations 149

FRIEDLANDER, F. G. On the Total Reflection of Plane Waves . . 376

GOLDSTEIN, S. On Laminar Boundary-layer Flow near a Position of Separation 43

—, LIGHTHILL, M. J., and CRAGGS, J. W. On the Hodograph Transformation for High-speed Flow. I. A Flow without Circulation . 344

GOODWIN, E. T. and STATON, J. Table of $J_0(j_{0,n}\,r)$ . . . 220

——. Table of $\int_0^\infty \frac{e^{-u^2}}{u+x}du$ 319

HARTREE, D. R. and JOHNSTON, S. On a Function Associated with the Logarithmic Derivative of the Gamma Function . . . 29

HILL, R. A Variational Principle of Maximum Plastic Work in Classical Plasticity 18

HOLT, M. The Behaviour of the Velocity along a Straight Characteristic in Steady Irrotational Isentropic Flow with Axial Symmetry . 358

HUSKEY, H. D., see FOX, L.

JAHN, H. A. Improvement of an Approximate Set of Latent Roots and Modal Columns of a Matrix by Methods akin to those of Classical Perturbation Theory 131

JOHNSTON, S., see HARTREE, D. R.

JONES, C. W. On a Solution of the Laminar Boundary-layer Equation near a Position of Separation 385
